Details

Smoke by Alan Rorrison allows you to produce a cloud of smoke on command - from your mouth. Diabolically deceptive and completely safe. Intended for those 18 years of age or older.

A match is ignited and pressed to a small black dot - a portal - is drawn on the palm of your hand. With your other hand, you slowly trace the path of ignition up your arm, across your chest, and finally to your mouth. You open your mouth - and a cloud of smoke emerges.

Created by Alan Rorrison, SMOKE represents simple, powerful magic. It needs no introduction. While intended for those 18 years of age or older, theory11 made every effort in production of SMOKE to ensure precise safety in operation. The smoke is harmless - made of organic compounds.

The DVD teaches a full routine utilizing the SMOKE gimmick entitled PORTAL by Dan White. You'll also see 6 other applications and concepts that you can build off of. The possibilities are endless.

Produktinformation

Nothing was a higher priority for us than safety. We went above and beyond to ensure that the gimmicks provided were as safe, effective, and reliable as humanly possible. In fact, the gimmicks provided were THREE TIMES the cost of our original prototypes. We demanded quality - and we took our time to find it. The smoke created using SMOKE is not actually smoke. Try to say that three times fast! But it is true - it is NOT smoke. It is actually vapor, made from organic compounds and completely harmless. It causes no irritation or discomfort whatsoever with responsible use.

A powerful, simple effect that is diabolical in function and applauded by some of the top names in magic. Enough supplies are included for close to a THOUSAND performances - and refills are available at any time.

SMOKE is intended for those 18 years of age or older. The type of gimmick included with this DVD has been clinically tested as safe, but use, operation, and performance of SMOKE is understood to be at your own risk. By purchasing this DVD, you acknowledge consent and understanding of this message.
