DVD with 18 routines + 3 Gimmicks: 1 gimmick for Bicycle cards, 2 more to customize to your favorite brand of cards

David Stone is back with the most amazing version of the Card on ceiling ever!

But more important, ZENith is just like "Tool", David's last best-seller : Once again the gimmick allows you to perform dozen of different tricks and routines!!!

Created by JB Dumas and David Stone, ZENith offers you to perform the most incredible Card on Ceiling version: You put all the cards into the card case, just throw it on a ceiling, and the signed card will appear on it ! You can right now give the box for examination!!!

This new practical way to perform the Card on ceiling, to make it even more magical, more impossible (how does the card goes out of the box...)... But more important of all, avoiding accidents related to the more standard versions of the Card on ceiling, like having all the cards falling to the ground or being unable to go on if your first try went wrong...

## Produktinformation

Zenith is not just another trick... But a concept, a brand new principle. The gimmick allows you to hold-out, steal or control invisibly one or two selected cards in an open and in a fully motivated way.
