"They don't make 'em like that anymore", is an often heard expression. This could well apply to the magical apparatus made by Floyd Thayer in the 20's and 30's. The Thayer Slogan "Quality Magic" was no idle boast. The workmanship was equal if not superior to the best including Roterberg, Conradi, Bartl und Willmann. ... All of Thayer's instruction sheets were in mimeographed form. These are reproduced in their original form along with the effect as printed in the Thayer catalog that the instructions themselves will be better understood.
