ca. 14 x 21 cm, 188 S., Dover Publications, Inc., New York, 1977, broschiert Have you ever done card tricks, and people yawned? Then you know what it means to be embarrassed and discouraged. The way out of this dilemma, however, is not immediate, but it is reliable: not only practice and a surer mastery of technique, but a more effective presentation, amusing and interesting routines, better showmanship. This book contains 112 such tricks, flourishes, sleights and manipulations. Annemann includes story tricks, spelling and counting tricks, his own card magic and manipulation used in the professional acts of such magicians as Jean Hugard, Walter Gibson, Dai Vernon and many others! All the tricks have been personally selected by Ted Annemann for their striking effect and entertainment value.
