### My Mind & Your Mind Boxes by Kenton Knepper

This is a very commercial presentation with loads of other possibilities! The prop is the classic Lubor Fiedler's "Gozinta" boxes. These boxes however are black with silver printing on them.

One box says "My Mind" and the other box "Your Mind". When the performer takes the nested boxes apart, he looks inside the "Your Mind" box and finds the spectator's chosen card. But now the fun begins... The performer pushes a card out face down from the deck. He peeks at the card. He puts the spectator's "Your Mind" box inside his "My Mind" box. "Now that your mind is inside my mind, you should be able to name the card I have in mind" the performer says to the spectator.

Sure enough, now that the spectator's "mind box" is inside the performer's "mind box" she can read his mind! She correctly names the face down card.

There are so many entertaining possibilities with this "Your Mind" and "My Mind" set of Gozinta or "In and Outer" boxes. This is commercial stuff for mentalists, and magicians will no doubt enjoy this too.

## Produktinformation

The plot of the nesting boxes; the outer one being able to go inside the inner box and vice-versa is always a novelty. But now there is a reason for the boxes to behave this way, and ends with a stunning climax to boot!

An entertaining bit to carry in your pocket to use with cards, or even billets, center tears and serial number effects. Kenton gives you his complete routine with the specially made boxes, and you are bound to come up with more of your own.

Boxes are black with silver lettering and artwork. A great price for a very commercial prop and routine as designed and performed by Kenton himself.
