This is sure to amaze! A classic winner that always plays strong! Magician takes a half-dollar and then a pencil or cigarette and actually penetrates it right through the middle of the coin! He then removes the cigarette/pencil and the coin is miraculously complete again!

This is the visual miracle that you have no doubt seen performed on television. Picture this: Borrow a cigarette. Then right under their noses you push the cigarette through the center of the Kennedy Half Dollar.. Let the effect sink in, then pull the cigarette back out. Watch them rub their eyes as you're returning the borrowed articles. You won't believe this gimmicked Half Dollar even after you've seen it. Easy to follow routine included.
