The Crown Jewel Of Impromptu Rubber Band Effects. Aus der englischen Beschreibung: A borrowed item (finger ring). An every day item (rubber band). Two of the strongest components of a powerfully magical experience combine in this four-phase presentation, whereby a rubber band penetrates on and off a finger ring - ONE STRAND AT A TIME. Russ Niedzwiecki explains his "Pinnacle Ring and Band", revealing the finesse sure to make this a modern-day classic, and an instant addition to your performing repertoire. You'll use this for the rest of your life.
