Claude Rix is a great magician known all over the world. He has traveled worldwide presenting his lectures and can count amongst his friends Fred Kaps, Ali Bongo and Pavel.

Come and discover his excellent trick "The Dice" and its ultimate version: he has fooled a large number of magicians with this trick over the years and you finally have the opportunity to get it in a beautiful collector's box.

You show the cards face up to the spectator, you mix the deck and the viewer is invited to choose a card. The card is returned to the deck and it is mixed. You make 6 packets on the table, the spectator rolls the die, the packet corresponding to the number of die is cast aside. You take that package and you deal remaining cards in six piles, and once again the viewer is invited to roll the die. The pile matching the number on the die is set aside, and as incredible as it may seem this is the chosen card!

With this new version you can finally show all the deck before you start, during and at the end. The audience will really feel like they witnessed a real miracle.

The Revelation(s) set includes:

- The trick "The Dice - Ultimate Version"
- A special bicycle deck of cards
- The die
