An entertainment masterpiece with playing cards in the classic tradition of W.C. Fields! Six cards begin as five blanks and one 10 of Spades and end up with the spectator holding one blank and a Royal Flush in Spades! Along the way the blank cards mysteriously evolve into surprise "winning hands" of poker in a series of sucker bets. Only 6 cards are used. No extra cards; no rough and smooth; no misprinted faces and no gimmicks to ditch. Fronts and backs of all cards are shown at the beginning, during the routine and at the end. All cards are actually handled by the spectator. In fact they are in the spectator's hands at the climax of the routine when the Royal Flush appears! Resets easily, so it's great for table hoppers. Comes ready to perform with the poker-size cards and a book-quality 16 page illustrated manual by Doyne Michie and Dan Garrett. Also included is a bonus routine by George Cornford of Australia. If you are looking for a routine that lets your personality and performing style come through, this is it! An entertaining packet effect that makes sense!
