Chews A Card

A deck of cards is shown and half is handed to someone.

My choice a card from your half then shuffles it into their own.

's HILARIOUS patter, they toss the cards high into the air but ... BEFORE THEY SHOULD HAVE!

As were supposed to reach out and catch it from the ascending shower but, caught unaware, it ends up in your mouth, gripped between your teeth!

This is a tried and tested stand-up routine and is 100% self-working.

Comes complete with Bicycle cards.
