### MYSTERY CLIP

Using for a lot of years the John Kenedy's « Mystery box » to find a signed folded card in a box, I had naturally this idea.

### Effect

There is a paper with a card folded in 4 in on the table from the beginning of your demonstration(if you want the paper clip can be hanged on a little stand) During your favourite signed card's routine, you can not find the spectator's card, you show all the cards, the signed card is vanished from the deck, you show the paper clip on the table, the audience can see a card folded in four in this paper clip, you let the card fall in your left hands, the card is now unfolded by the spectator, it's the spectator's signed card !!! you will see, you will receive big ovation for this effect.

Good point : the folded card is visible from the beginning, before the card is chosen and signed.

If you want you can do this effect with the paper clip and the folded card in a box, to keep the surprise until the end!
