DVD description

Includes:

1. Stab:

The selected card is found by the spectator themselves. No "suspicious" movements involved!

2. Two Card Transpo:

A two-card transposition effect that doesn't require any difficult moves or sleights. You don't even need extra cards!

3. The Informer:

Two spectators each choose a card. The first card "informs" the magician on the whereabouts of the second card, allowing the magician to miraculously locate the second card.

4. Memory Test:

The spectator finds the selected card themselves with all the cards face down!

5. Ambitious Card:

The classic Ambitious Card routine enhanced by Mr. Pearl's magic theory.

6. A.C.A.A.N.:

This is the ultimate A.C.A.A.N. (Any Card At Any Number) routine - it's so simple you won't believe it!

7. Trilby:

The spectator freely makes a choice, yet somehow still ends up with the predicted card.

8. Svengali:

Did you know 'Svengali' was a hypnotist? This routine will surely make your spectator feel like they've been hypnotized! All the cards visually change to their selected card, and then are restored back to a normal deck.

9. Oracle:

This is one of the best routines that can be performed with a Svengali Deck! The magician predicts the future with beautiful subtlety as the secret of the Svengali deck is preserved.

10. Hypnosis:

The entire deck visually changes again and again, just as if you're hypnotized. You won't believe your eyes!

11. Bonus Effect: Card Stab:

A chosen card is lost in the middle of the deck. Then, another card is shot into the deck. Magically, the card has shot right to the position of the chosen card.
