A selected card suddenly and inexplicably becomes perforated with countless holes. Then, in the blink of an eye, all the holes vanish, but they have to go somewhere, don't they?... Upon examining the deck, one large hole is now seen to be running right through its center! This is truly a reputation-maker! It resets easily, there are no difficult sleights, and everything takes place in the hands, so it's perfect for walkaround work! SWISS PACK comes complete with all the necessary cards, and a 12 page instruction booklet illustrated by Tony Dunn, featuring David's professional routine, plus additional ideas from Aldo Colombini. Produced by Aldo and distributed by The Camirand Academy, blue Bicycle Backs
