HANK BALL: With the aid of the Hank Ball you are able to either vanish or produce one or more silks and show both hands empty, front and back. You receive a flesh colored ball with a catgut loop. Adjust the loop to size so that it will hang at the centre of the palm, see drawing.

SILKS: The Hank Ball will hold ~ 3-18" silks, or 6-12" silks. By cutting the silks diagonally from corner to corner you can double your load.

TO LOAD THE SILKS: Tuck the first silk into the ball leaving about 2" protruding, twist the corner of the second silk around the corner of the first and push into ball. Remaining silks are treated likewise.

SLEIGHTS: TO SHOW BOTH HANDS EMPTY: With hands from right thumb.
