Effect: This is similar to the clown coloring book in our other auctions, but somewhat different. More like a flip book showing action. Starts with a bunch of pictures of the famous monuments over the world, then to a boy, a rope charmer and a magic basket. As you flip through the book, the rope goes into the air, then the boy goes up the rope, then the magician goes up the rope, then (not sure why!?) but the boy drops from the sky in pieces, not bloody, but still. Then the boy pops out of the basket unharmed.

Also details presentation and patter suggestions. Explains the stories behind the pictures, so your presentation will make more sense than my description:)

Brand new, not in any packaging. Full size book, 8.5 by 11 inches
