BLEACHED!

You show three regular playing cards and one card that is completely blank. The idea is like Find the Lady - they have to find the blank.

After a series of mind-boggling manoeuvres, during which the blank proves to be as elusive as the Pimpernel, the blank prints into a regular card. You now have FOUR regular cards!

Finally ALL FOUR cards lose their ink to become blanks! No false counts - THEY REALLY ARE ALL BLANK!!

Very Easy to Do!

Resets in One Second!

Comes Complete with the Special Cards.
