This small version of the popular Sketch-O-Magic trick is great for walk-around work, table-hopping or close up entertaining in hospitals. Also fine for smaller shows.

Show a sketch pad of different faces with pages pre-cut into three segments to create a flip-book, so you can come up with lots of combinations and colors by flipping to different pages.

You let three spectators make apparently random selections the top of a head from one picture, eyes and a nose from another picture, and a mouth from another. Ask a spectator to open an envelope you previously gave him. He pulls out a picture which matches perfectly the audiences selection!
