### Seeing is believing.

The effect: You fan out 6 cards, 5 red cards and 1 black card.

Take the black card, put that card in your breast pocket. Take out the card from your breast pocket that card has turned red now, fan out the cards and they are all black. You can repeat this over and over again.

Set-up: 4 cards diagonal half red, half black. 2 more cards without preparation, the 7 of hearts and the 7 of spades. All the cards have the same back.

Put the diagonal cards, with the red side to the left, then place the 7 of hearts and the last card the 7 of spades.

Presentation; Hold cards between thumb and fore-finger in the left corner, fan out the cards facing you, the back of the cards are facing the audience.

Turn the left hand wrist and arm side wards, the are facing the audience now. Tell that you will take the 7 of spades and put the card in your breast pocket. You put the thumb of your right hand on the 7 of spades, the fore-finger goes under the 7 of hearts, by turning the left hand towards you (left arm and wrist, cards facing you again, like in the illustration) pull out the 7 of hearts and put that card in your breast pocket and say "This is the 7 of spades".

Close the fan with the palm of your right hand. Take the fan between thumb and fore fingers of both hands and turn the cards over length wise, 7 of spades facing the audience. Fan cards out from left to right, they have turned black, the card in your breast pocket is now red. Put the red 7 on the other cards turn cards over side wards and you can start over and over again.
