## **Produktinformation**

A couple (wife and husband, boyfriend and girlfriend, lovers, etc.) is invited to participate in a love test.

Each one must call a card from the deck. The magician takes out the cards from the deck (which was visible all the time) and shows them both sides.

After showing the cards with their face to the audience, we look for the two cards chosen by the spectators, take them out of the deck and drop each card on the spectators' palms. Next, we ask them to turn the cards over at the same time and as they do so, they will see that both cards have a heart printed on the other side. The deck is shown again to verify that none of the other cards had a heart printed, only the two that were chosen, signifying true love!!!
