This is another “goodie” from **Roy Walton** whose trick “**Cardwarp**” took the magic world by storm! In this effect, “**Cascade**”, four cards turn face up, then face down in a most remarkable manner. At the finish of the effect, the performer shows he has been using trick cards- two have blank faces and two others have gaudy colored backs!! And the cards can be examined! They are indeed strange, but not gimmicked. If you can do an **Elmsley Count**, this is an excellent effect to carry with you. Use the four cards as “covers” for your favorite coin assembly after performing “**Cascade**”.
