Slim is a collection of routines which all use a small packet of cards taken from a regular deck. There are no gimmicks, no gaffs and no set up. All you need is a pack of cards and you are good to go. Next time you really want to blow away your audience make sure you get 'Slim'.

### **Back Off Apollo**

The strongest all backs routine you will ever see, using just a small packet of cards and a full deck kicker. This routine is definitely the Oscar winner of the DVD!

### **Rocky's Triumph**

An underground sensation which Craig has finally released. An ultra convincing triumph routine with a shuffled deck that ends with a surprise production of a four of a kind.

### **Mr T's Knock Out**

A four phase sandwich routine that ends with the kicker of the entire deck appearing between the two face up cards.

---

## **Total Workout**

An impromptu version of Wild Card with a signed card and a double change. This is one wild card that you WILL do!

## **Twisted**

The perfect blend of magic and mentalism just using four Jacks and a selected card.

## **Micky's Mish Mash**

This routine combines a wonderful presentation with some great visuals. A great routine to add to any commercial card magic repertoire.

## **Yo Adrian**

This routine opens with a super visual production of a four of a kind and two selections. You then go into a four for two transposition with a kicker that nobody will ever see coming.

## **Special Bonus - Sun Bed Matrix**

Imagine punching four holes in a playing card and then moving them around a la Coin Matrix. This is a bonus because it does require a DF card but it is the cleanest and most practical version of the plot you will ever see. Oh, and did we mention that the card is signed?!!

Running Time Approximately: 2 hr
