As you would expect, Guy explains the effects clearly, and they're beautifully illustrated by him. His wonderful new sleight, The Topless Change, is a kind of Top Change of a card but from a most unusual position. It's wonderful, elegant, and simple, and he uses it in an Ace Assembly to illustrate the properties. He also explores a wonderful new Card to Pocket effect that we have seen him absolutely amaze magicians with.

As for the "classic" Hollingworth effects covered, our favorite is The Voodoo Card, in which you openly tear and burn a card, and its mate--without going near it--also is displayed torn and burned. It's a beautiful, original plot, and exemplifies Guy's creativity.

The complete list of effects are:

- Topless Change
- Minimalist Ace Assembly
- Cards to Pocket
- Universal Card Scam
