Jabberwocky is a conglomeration of mentalism, mind reading, bizarre magic, strange, weird, and spooky magic that's also sprinkled with a rich tradition of storytelling by Tony Shields. More commonly known as "Doc," Tony was a British magician who made a powerful name for himself as a performing magician in the 1960s.

As a stage performer Doc understood all too well how easy it is to lose an audience, especially if there is a skeptic in the crowd. One of his most effective ways of dealing with this was to keep the audience on their toes, while also adding a little bit of a dark touch of comedy to the stories he was infusing throughout his magic act.
