**Effect:** Remove 3 threes from any deck, hand them out for full examination. The threes are slowly but surely mixed in between any 3 indifferent cards. Without any moves, switches or sleights, the threes separate themselves from the other cards.

This is repeated a second time with the threes FACE UP. The threes are once again mixed in between any 3 regular cards in the cleanest, fairest manner. The spectator actually sees every three being placed in between any 3 indifferent cards. Under these impossible circumstances, the cards once again separate from each other.
