We supply a large 36" Silk, depicting the Queen of Hearts.

You can use it for Production from any standard Production prop. You can also use it for specific Magic routines, as detailed below.

For some effects, you may require to use this with an ordinary 36" silk to match the background colour, or other ordinary solid colour silks.

Ideas for use of the QH silk.

The most popular use for Card Silks is an offbeat revelation of a selected (forced!) Card.

The performer has a Card selected from a deck, in fact forcing the Card that matches the picture Silk. This force may be with an ordinary deck, using the Classic force, or X-ing the Cut etc., or by a forcing deck like the Svengali, or a Rough & Smooth Force deck, or "your favourite method" !
