Effect: Performer shows two stacks of blocks, three blocks in each stack. The blocks are numbered 1,2, and 3 in each stack. Performer stacks one stack of blocks in 1-2-3 order in the Gemini Tube and the other stack is in 1-2-3 order in full view.

Performer rearranges stack in view and when the tube is lifted it reveals that the second stack has magically changed its order to match the visible stack.

This is repeated several times, changing the position of the blocks and even turning them around or upside down, still the stack under the Gemini Tunnel matches the order of the visible stack.
