

Découpures Magiques du Papier

Art-Nr.: _18505_ / GTIN: neu / Marke: [Monarque](#)

This very unusual book on the allied art of paperfolding and tearing contains actual miniature versions of the paper patterns to demonstrate the methods. Very uncommon, only other copy I can found is preserved in France at the Centre National des Arts du Cirque. This is signed and numbered on the title page (it's a limited run of 200, 50 of which have the models).
