THE 'COLOUR BURN' EFFECT

A blue backed deck is removed from its case. The deck is spread and your spectators are asked to call out the names of some cards that they see. You then take the named cards and, one by one, begin to magically change their back colour from blue to red! Offering a better look at the technique you announce that you will change the back of another card...

...IN SLOW MOTION!

With a gentle wave of your hand, the card begins to visibly change. The card actually appears to change as you move your hand back and forth over it! You pause halfway - the card under your hand is half blue and half red! Slowly, you complete the colour change, visually changing the remainder of the blue card to red. The card is now fairly shown on both sides - it has completely changed to red!. But, you're not done...

With a snap of your fingers the entire deck instantly changes to red before their already disbelieving eyes. They pick their

jaws up - you move onto your next miracle!

Colour Burn is a colour changing deck routine unlike any other. The effect plays exactly as described above and includes a stunning 'slow visual' moment where the back colour of a card is seen to change visually as you wave your hand over it. This amazing visual transformation is accomplished via a devilish gimmick, the details of which are fully explained in the download.

The gimmick has a multitude of uses, most of which are yet to be explored but as a special bonus, a second effect called 'PRINT RUN', is included in the DVD:

THE 'PRINT RUN' EFFECT: In slow motion, you magically PRINT a thoroughly examined 'blank both sides' card to match a selected card! No set-up. Do it anytime during your act. Card can be examined before and after.

With 'COLOUR BURN', The Possibilities are ENDLESS!

Running Time Approximately 60min
