Supreme Magic, Supreme WOMAN HUNT Bideford, Devon.

Here is the cleanest of Jumbo 3-card Montes. Although the principle used is by no means new, as it has been used in many items of this type before, in this instance a number of subtle moves, plus the excellent routine which follows, lifts the effect really up into the miracle class.

THE EFFECT is that three spot cards and a Queen are shown. One of the spot cards is placed aside back outwards. The Queen is turned face downwards amongst the other two. No matter how hard the audience try, they can never spot the Queen! The climax of the trick is very good indeed, when the Queen vanishes altogether, taking the place of the indifferent card which was previously placed aside!
