If you like strong, memorable, 100% reaction magic that lasts with your audiences then this DVD is for you. All the effects were filmed in real situations with members of the public.

Card Watch - This effect has everything: a reason, tension, and an astonishing finish. A spectator tries to quickly draw the magician and a mere thought of a card ends up behind the spectator's own watch.

Sweet dreams of you - The magician tells a story of a dream he had where a card was signed, it is reconstructed. As a climax a card that has been on the table all along turns out to have the spectator's signature and has a different colored back.

Wild Frame - Three copper coins appear from the frame of a purse, dropped though, turn to silver, change back to copper and eventually disappear. Quite a knuckle buster.

Single Cup and Balls - A very workable variation of the classic cups and balls using a single cup and ball bearings with

Produktinformation

large metal balls for the final loads. Ideal for restaurants.

2 Wrongs Donât Make a Right -This is a great little packet trick that uses minimal sleight of hand. It has a funny patter and makes terrific use of word play.
