JUMBO SEXY VISION

Created by Kaifu Wang

"Jumbo sexy vision" is the pro version of Slide Vision. This new version has the visual effect as the Slide Vision and the picture much larger. Besides, it is more entertaining, which is vital in the pro's magic show. We believe that you will be glad to own this fun and entertaining effect.

PROPS USED:

1. transparent disc.
2. a disc with the picture of a playing card, on one side and a topless lady on the other.
3. a deck of playing card (use your own).

SECRET:

Overlap the transparent disc on the picture disc and turn the upper disc clockwise slowly. The picture will gradually disappear (or appear). If you continue to turn the disc the picture will come into view again (or disappear).

PREPARATION:

Place the transparent disc on top of picture disc (topless lady side up) and adjust the upper disc so that the lady can not be seen. Use a clip to hold them in place and put it in your pocket or on the table and you are ready to go.

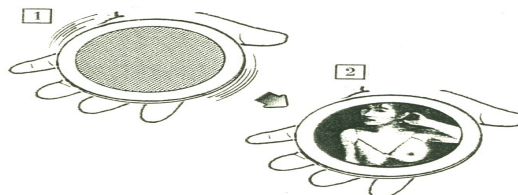

ROUTINE:

Use your favorite "Force" to force the identical card on the disc to a spectator, asking him to remember this card. Bring the discs from your pocket and place them on your palm holding it in place with fingers. Say to the spectator "these are magic discs that will reflect a person's thoughts, let me try it for you."

Place these discs on your palm and hold it with fingers (Fig.1). Ask the spectator to look at the middle of the disc closely and think of his card at the same time. Your palm up hand starts to do a circling motion. Because the picture disc is larger than the transparent one so it will remain steady while the transparent one will move clockwise or counter-clockwise slowly. Be careful not to shake the upper disc out of place or drop it. Stop the circling motion when the lady's picture is visible (Fig.2). If you overdo the circling motion the picture will be out of sight again.

Now transfer the upper disc beneath the lower disc and show the lady to the spectators. You look surprised and say to the spectator "Sir, you are not thinking of your card, are you? Try not think of anything other than your card. We will give you one more chance." When you are talking quickly adjust the disc so the card can not be seen.

Turn the discs over so that the picture of the lady becomes face down. Do as before and reveal the playing card on the disc. Hand the picture disc to the spectator for examination and place the transparent disc in your pocket. This will avoid exposing the secret in case the spectators play with these two discs and accidentally discover the secrets.
