Ask your spectator to name any card, and you agree to make the selected card vanish. The deck of cards is placed in the box, you give the box a tap, and declare that the card is gone. To prove it, the box is turned over- the **entire deck is gone**, and the whole front of the box is missing, revealing an **empty box!**

Seems totally impossible, but it is SO EASY!

If you can slide a deck of cards into a card box, you can do the trick! WOW!
