THE DECK

The deck of cards accompanying these instructions is based upon the "new principle" of rough and smooth cards. The deck is composed of 52 cards, 26 of them being similar and 26 being indifferent cards. In these instructions let us assume that the 26 similar cards are the ten of spades. In this case every other card in the deck will be a ten of spades, with an indifferent card between them as they are thus interspersed throughout the deck. EXAMINE THE DECK AS IT IS RECEIVED and you will at once see the principle. The faces of all the similar cards (ten of Spades in this instance) have been roughened, and likewise the backs of all the indifferent cards.
