London. E. C. 1.

You are now in possession of the ultimate of the Three Card Trick. Read these instructions carefully and follow through with the cards on each move. Do not rush - a short time spent here will soon make this one of your favourite card effects.

Effect: Three cards are displayed in a fan. Two of them are Pip cards, the centre one a Court card. During a routine in which the fan is turned over many times - the spectators see the Court card vanish and change to a pip card repeatedly. These changes are done in a manner which is very convincing and baffling. The routine climaxes with the Court card visibly vanishing and all the cards being shown both sides.
