Effect: A black 45 r.p.m. record is placed into a record jacket. A red silk handkerchief is pushed through the hole in the jacket. The record is removed and it has changed color to match the silk – it is red! This is repeated as another black record changes to yellow and a third black record changes to blue! The record jacket is then shown empty!

Produktinformation

You receive all necessary records (which can be shown on both sides), three silk handkerchiefs, the record jacket and instructions.
