## Produktinformation

**Larry Jennings**, (a disciple of Dai Vernon's natural magic sleights and moves) performs and teaches his legendary routine that Ken Brooke called "The greatest Chop Cup routine I've ever seen" and he used it himself! Larry's routines are "pure simple" and you will relish his movements and handling!

**Don Alan**, whose routine is probably the most renowned of all, made this his "signature effect" for his close up performances! (Enough said)

**Martin Lewis**, you will love his original, clever entertaining performance! Quick, effective, high energy and entertaining! And IF you want to make your own Chop Cup, Martin will teach you how to make the one he uses, out of a "Green Giant" can of peas! And you'll laugh at his closing gag with the two final load balls! (So good you will use it yourself).

**Brad Burt**, Brad's passion for the "art of magic" makes him an excellent teacher and you will see his patience in teaching some of the sleights, moves, misdirection, and techniques used in a good Chop Cup routine!

These four professional artists gladly teach their private routines for all to learn and use!
