The secrets of a professional magician!

160 Seiten im Format 11 x 18 cm, Sphere Books Limited, London 1977, broschiert

Klappentext:

Before your very eyes! Magicians, it seems, can perform the impossible. No matter how close you watch, you'll find yourself baffled by their amazing feats. And when it happens right under your nose - close-up magic - it's even more astounding! Now in this book, Magic Circle Star Harry Baron tells how these close-up tricks are done, and how you too can learn to perform stunts, puzzles, sleight-of-hand, vanishing and "telepathic" tricks, and hundreds more mini-miracles. It doesn't need any special skills or expensive equipment - with Harry Baron's step by step instructions and just a little practice, you can mystify family and friends for a long time to come!
